# Chief Officials Salaries with effect from 1st April 2021

#### **Calculation of Increase**

Salaries are increased by the percentage or fixed rate agreed in the pay settlement. For salaries increased by a percentage the new amount is rounded to the nearest whole number. This means that new annual salaries are calculated to the nearest pound. For the next increase, the existing rounded rate is then used as the starting point in the new calculation.

Fixed rate increases do not generally require rounding.

Before 2015 each annual rate of salary was increased or reduced to the nearest multiple of  $\pounds$ 3. This is no longer applicable.

Employers and their payroll providers will have their own specific methods for converting annual salaries into monthly or four-weekly pay, and for taking account of part-time and part-year working.
